(note: some emergency radios provide solar phone charging. make sure the charger is compatible with your phone).

Emergency Kits and Supplies

Pet Go-bag

Each pet should have their own “go-bag” that can be carried with you in case you must evacuate your home with your pets.

Item	Description
Water	Sufficient to reach your evacuation center.
Nutrition	Food for 7 days stored in air and watertight containers.
Medicine	All pet meds you have at home including flea and tick prevention items.
Security items	Collar or harness with ID tag, rabies tag and a leash.
Pet Carrier	Crate or pet carrier large enough for your pet to stand, turn around and lie down.
Comfort items	Bedding, most favored toys, and treats can help reduce your pet’s anxiety and stress.
Documentation	Registration information, adoption papers, and vaccination documents. A picture of you and your pet together so if you become separated you can help others to assist you in your search as well as prove ownership.
Sanitation items	Pet litter/litter box if appropriate, newspapers, paper towels, plastic trash bags and household chlorine bleach, latex gloves, and isopropyl alcohol.

Go to [Ready.gov, pets](https://www.ready.gov/pets) for more information on this subject.

Travel to an Evacuation Center

Make sure your cars have a full tank of gas. If you don’t drive often, consider getting a car jump starter. Some models also charge electronics. See [Car battery jump starters](#).

Make sure electric vehicle batteries are fully charged and know where to find charging stations.

Practice opening garage doors manually.
